Subject: Your usage of the debian.eu domain

Dear Mr. Dhaenens,

You are listed as the holder of the debian.eu domain name. Debian is a registered trademark of Software in the Public Interest, Inc and is managed by the Debian project.

Debian has informed us that they believe you are using the debian.eu name inappropriately; it redirects to a hosting website (<http://www.combell.com/nl>) which you appear to be involved in.

We hope that you have registered this domain on behalf of Debian GNU/Linux and have been waiting for them to contact you about it. I am therefore writing to you to request that you transfer control of the debian.eu domain to Software in the Public Interest, Inc. to hold for the Debian project. Please contact [hostmaster@spi-inc.org](mailto:hostmaster@spi-inc.org) so that we can begin this process.

Sincerely,

- Jörg Jaspert -  
Vice President, Software in the Public Interest, Inc.
